

An ISO 9001:2015 Certified Institute

**Sant Gajanan Maharaj**  
**College of Engineering, Mahagaon.**

ESTABLISHMENT DATE  
30 June 2012

COLLEGE CODE  
EN6803

Approved by AICTE, New Delhi and  
Recognized by DTE, Mumbai.

Affiliated to Shivaji University,  
Kolhapur.

## Transforming Rural Youth to Global Techno Crats

Being a rural institute, one area of thrust is to transform rural students into global technocrats. This is in alignment with our stated vision.

Vision: To meet the aspirations of a global community through sustainable quality education and interdisciplinary research with innovative changing technology.

The objective of the institute is to transform rural students into global technocrats by providing opportunities for students to learn the technical subjects to complete their degrees. The institute nurtures them for a successful career to contribute to the betterment of society. It helps them to gain knowledge and skills in subjects beyond the course to make students ready for the present global job market and mold them into skilled professionals.

The institute promotes research and development for faculty and students under the guidance of Dr. A. A. Mane and Dr. S.H.Sawant. The R&D lab has triggered the students to think ahead of the future. Sponsored projects encourage student's enthusiasm towards research. FDP's are conducted to enhance faculty skills and knowledge. Institute encourages faculties and students for PG's, Ph.D.'s, research, seminars, conferences, and workshops by providing paid leaves and funds.

The institute conducts different activities such as soft skills, cultural and technical events to intensify the student's personality. Students are trained to enhance their employability skills by imparting technical training, soft skills, GD aptitude classes, etc. to make the students industry ready to face the job market successfully. To upgrade the knowledge and enlighten them on the current trends of technological advancements regular lectures by eminent professors, industrialists, seminars workshops, and software pieces of training are conducted. We aim to

transfer rural students to become technocrats with a high standard of professionalism and morality and all-around development.

Training and Placement Cell conducts various training programs which bridge the gap between Curriculum and Industrial requirements.

Various activities were conducted to support "Transforming Rural Students to Global Technocrats".

### **BHARARI Digital Solutions:**

One of its Kinds Earns while you learn scheme was developed by the Institute in form of Knowledge Process Outsourcing Company Bharari Digital Solutions on the campus of the college. The company caters to the medical industry by helping medical professionals to digitize their records. This has created a revolution amongst students by offering them a professional platform to showcase their leadership skills.

### **Finishing School:**

Focuses on Soft Skills Training for engineering students. International Trainers educate the students on the importance of certain skill sets that help them to survive and offer quality services to the industry. Overall Emotional and Analytical strengths are identified amongst students by conducting activity-based training programs. Training Programs emphasize Interview Skills, Personality Analysis Professional Training for up-gradation of presentation skills. Students are educated to manage their fear and confront the stage to express them.

### **Memorandum of Understanding:**

Collaboration with various industries and Research Laboratories for understanding the demand from the industry and future trends to learn and expertise.
